WHAT IS A MASTER PLAN?

A Master Plan is a long-range plan for a community that provides guidance for city-wide growth and development patterns, investments, and initiatives. It serves as the guiding policy document for many of the City's most critical decisions, such as redevelopment decisions, zoning changes, and capital investments. A Master Plan should reflect the needs, values, and priorities of the community while safeguarding the City's sense of place, history, and natural resources.
